

Photosynthesis/Respiration Performance Assessment

Name: _____ Date: _____

You will work in your grouped tables to create a way to teach others about the photosynthesis/respiration cycle. You can choose from the following:

- Interactive Game board
- Trivia Game board
- Information Poster
- Model of the Photosynthesis/Respiration Cycle - clearly labeled & detailed.

You will use this to then teach the class about the Photosynthesis/Respiration Cycle. Everyone needs to have a role in the product and everyone needs to participate.

Rubric:

- Diagram of photosynthesis & respiration included (15 points)
- Game board / Poster is easy to use (10 points)
- The cycle is clearly detailed with all keywords involved (15 points)
- Instructions are included with details of rules and roles of players (10 points)
